After being established in 1947 Malthouse Engineering has grown significantly to become the premier flamecutting company in the UK. We are the countries largest independent profiler with facilities at

- Oldbury
- Wednesbury
- Wakefield
- Worcester
- West Bromwich

We supply a multitude of industries across the UK and Ireland using our own fleet of lorries to deliver our products.

Keiton Engineering who specialise in flame cutting and surface grinding were formed in 1988 and the company grew steadily until January 1994, when Rapid Steel Profiling was incorporated as a trading division of Keiton Engineering

Keiton Engineering and Rapid Profiling offer a comprehensive flame cutting service to all industries in most material specifications, ranging from 5mm to 800mm.

Undergear Engineering was founded in 1942 and is a major component supplier to a number of different industries including:-

- Automotive
- Off Road
- Heat Exchanger / Oil Cooler
- Mining
- General Engineering

Having invested heavily in a wide range of CNC machinery, Undergear Engineering are able to remain competitive and extremely flexible in meeting its Customers ever changing requirements

Did you Know.....

The Malthouse group is your **“One-stop Shop”** for all your material needs. We can now offer fully machined profiles, castings and bars plus fabrications and much more.

This means we can deliver finished jobs to **YOU** quickly and more competitively, saving **YOU** money. Call us today for very competitive rates, or ring and arrange for one of our representatives to come and visit you.
